PROFESSIONAL EXPERIENCE

Perithus Technologies, São Paulo, SP (Remote) — Full Stack Developer

From Jan 2020 to Jul 2021

- Developed Websites, small plugins and APIs for local customers. Built and maintained an IoT product in a health tech startup developed in ReactJS/TypeScript and NodeJS/MySQL.
- Coordinated Development projects with a team of 3-5 developers. Raised the NPS score from 55% to 86%

DELL EMC, São Paulo, SP — Delivery Specialist

From Jun 2018 to Jan 2019

- Improved deployments of Storage Infrastructure assuring high availability and scalability of services in a Banking company. Implemented a monitoring process that reduced in 10% incidents occasioned by changes in the environment.

UOL SA, São Paulo, SP — Sr. Infrastructure Analyst

From Apr 2015 to Jun 2018

- Planned, Designed, Deploy and Support of Storage Systems (Data Center) to 1800+ customers among outsourcing, hosting and managed services. Technical Subject Matter Expert for the team, I trained 50% of the new hires, improved the quality of delivery in 80% and had career promotions for three consecutive years.

EDUCATION

FIAP, São Paulo, SP — Bsc. Information Systems, minor in DevOps and Software Engineering

From 2019 to 2022
